Blue Cross Senior SmartChoice
2019 Prescription Drug Formulary

This formulary was updated on March 1, 2019. For more recent information or other questions, please contact Anthem Blue Cross Customer Service at 1-800-333-3883 or, for TTY users, 711, from 8 a.m. to 6 p.m. PT, Monday through Friday.

ANSF007S(Rev. 3/19)-CA
What is the Prescription Drug Formulary?

The Prescription Drug Formulary is a list of generic drugs covered by your Medicare Supplement Blue Cross Senior SmartChoice plan. The formulary is a list of effective and commonly prescribed Food and Drug Administration (FDA) approved drugs chosen by Anthem Blue Cross. Formulary drugs are chosen for their value and effectiveness.

What are generic drugs?

Generic drugs are equivalent to their brand-name counterparts. They contain the same active ingredients in the same amounts as the brand-name drug. Like brand-name medications, generic drugs are subject to the same FDA quality and safety reviews. As a result, generics are safe and effective alternatives to brand-name medications.

In addition, using generic drugs will lower your health care expenses.

For more information

Please call the Customer Service number on your ID card if you have questions about the Prescription Drug Formulary or your prescription drug benefits. TTY users may call 711 for additional information. Hours of operation are 8 a.m. to 6 p.m. PT, Monday through Friday. Or check our website at www.anthem.com/ca/pharmacyinformation/ for additional information.

General information

The Blue Cross Senior SmartChoice Prescription Drug Formulary is updated regularly by the Pharmacy and Therapeutics (P&T) Committee. This committee is made up of participating providers (doctors and pharmacists) actively practicing from a variety of specialties. The purpose of the P&T committee is to maintain the Prescription Drug Formulary and to serve as an advisory body on matters related to the therapeutic use of drugs. Formulary revision is based on prescription therapies believed to be a necessary part of a quality treatment program, safety and cost of reviewed medications.

Anthem Blue Cross encourages you to share the Blue Cross Senior SmartChoice Prescription Drug Formulary with your doctor. This will help you talk to your doctor about affordable and appropriate medication alternatives.

The medications listed on the Blue Cross Senior SmartChoice Prescription Drug Formulary are subject to change without prior notification.
