</table>

***** The most current version of our reimbursement policies can be found on our provider website. If you are using a printed version of this policy, please verify the information by going to www.anthem.com/ca/medicareprovider.*****

These policies serve as a guide to assist you in accurate claims submissions and to outline the basis for reimbursement by Anthem Blue Cross (Anthem) Medicare Advantage if the service is covered by a member’s benefit plan. The determination that a service, procedure, item, etc. is covered under a member's benefit plan is not a determination that you will be reimbursed. Services must meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis as well as to the member’s state of residence. You must follow proper billing and submission guidelines. You are required to use industry standard, compliant codes on all claim submissions. Services should be billed with Current Procedure Terminology (CPT) codes, Healthcare Common Procedure Coding System (HCPCS) codes and/or revenue codes. The codes denote the services and/or procedures performed. The billed code(s) are required to be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our policies apply to participating providers and facilities; a non-contracting provider who accepts Medicare assignment will be reimbursed for services according to the original Medicare reimbursement rates.

If appropriate coding/billing guidelines or current reimbursement policies are not followed, Anthem Medicare Advantage may:
- Reject or deny the claim.
- Recover and/or recoup claim payment.

Anthem Medicare Advantage reimbursement policies are developed based on nationally accepted industry standards and coding principles. These policies may be superseded by mandates in provider, state, federal, or Centers for Medicare and Medicaid Services (CMS) contracts and/or requirements. System logic or set up may prevent the loading of policies into the claims platforms in the same manner as described; however, Anthem Medicare Advantage strives to minimize these variations.

Anthem Medicare Advantage reserves the right to review and revise our policies periodically when necessary. When there is an update, we will publish the most current policy to this site.

<tr>
<td>Anthem Medicare Advantage allows separate reimbursement for significant, separately identifiable Evaluation and Management (E&amp;M) services billed with Modifier 25 unless provider, state, federal or CMS contracts and/or requirements indicate otherwise.</td>
</tr>
</tbody>
</table>
Reimbursement is based on 100% of the applicable fee schedule or contracted/negotiated rate for the significant, separately identifiable E&M service performed by the same provider on the same day of the original service or procedure if all the following criteria are met:

- The appropriate level of E&M service is billed.
- Modifier 25 is appended to the E&M service, which is above and beyond the other service or procedure provided (including usual preoperative and postoperative care associated with the procedure).
- The reason for the E&M service is clearly documented in the member’s medical record.
- The documentation supports that the member’s condition required the significantly separate E&M service.

Failure to use Modifier 25 correctly may result in denial of the E&M service. Anthem Medicare Advantage reserves the right to perform postpayment review of claims submitted with Modifier 25.

**History**

- Review approved and effective 09/28/17: Modifier 25 description language updated
- Biennial review approved 06/06/16: Policy template updated
- Initial review approval effective 01/01/15

**References and Research Materials**

This policy has been developed through consideration of the following:

- CMS
- State contracts
- Optum Learning: Understanding Modifiers, 2016 Edition
- AMA: Coding with Modifiers, 5th Edition

**Definitions**

- **Modifier 25**: used to indicate that on the day a procedure or service was performed, the member’s condition required a significant, separately identifiable E&M service above and beyond the original service, or above and beyond the usual preoperative and postoperative care associated with the original procedure; a significant, separately identifiable E&M service is defined or substantiated by documentation that satisfies the relevant criteria for the respective E&M service to be reported
