NEWPORT MESA UNIFIED SCHOOL DISTRICT
Fee-For-Service Medical Plan $250 Plan

This summary of benefits has been updated to comply with federal and state requirements, including applicable provisions of the recently enacted federal health care reform laws. As we receive additional guidance and clarification on the new health care reform laws from the U.S. Department of Health and Human Services, Department of Labor and Internal Revenue Service, we may be required to make additional changes to this summary of benefits. This proposed benefit summary is subject to the approval of the California Department of Insurance and the California Department of Managed Health Care.

Insured persons are responsible for deductibles, as described below. Please review the deductible information to know if a deductible applies to a specific covered service. Insured persons are also responsible for all costs over the plan maximums. Plan maximums and other important information appear in italics. Benefits are subject to all terms, conditions, limitations, and exclusions of the Policy.

**Explanation of Covered Expense**

Plan payments are based on covered expense, which is the lesser of the charges billed by the provider or the customary & reasonable charge for professional services or the reasonable charge for institutional services.

**Insured persons are responsible for any difference between the covered expense & actual charges, as well as any deductible & percentage copay.**

In addition to the benefits described above, coverage may include additional benefits, depending upon the insured person’s home state. The benefits provided in this summary are subject to federal and California laws. There are some states that require more generous benefits be provided to their residents, even if the master policy was not issued in their state. If the insured person’s state has such requirements, we will adjust the benefits to meet the requirements.

This Summary of Benefits is a brief review of benefits. Once enrolled, insured persons will receive a Certificate of Insurance, which explains the exclusions and limitations, as well as the full range of covered services of the plan, in detail.
Fee-For-Service Medical Plan — Exclusions and Limitations

Not Medically Necessary. Services or supplies that are not medically necessary, as defined.

Experimental or Investigative. Any experimental or investigational procedure or medication. But, if insured person is denied benefits because it is determined that the requested treatment is experimental or investigational, the insured person may request an independent medical review, as described in the Certificate.

Crime or Nuclear Energy. Conditions that result from (1) the insured person’s commission of or attempt to commit a felony, as long as any injuries are not a result of a medical condition or an act of domestic violence; or (2) any release of nuclear energy, whether or not the result of war, when government funds are available for the treatment of illness or injury arising from the release of nuclear energy.

Uninsured. Services received before the insured person’s effective date. Services received after the insured person’s coverage ends, except as specified as covered in the Certificate.

Excess Amounts. Any amounts in excess of covered expense or the lifetime maximum.

Work-Related. Work-related conditions if benefits are recovered or can be recovered, either by adjudication, settlement or otherwise, under any workers’ compensation, employer’s liability law or occupational disease law, whether or not the insured person claims those benefits.

Government Treatment. Any services the insured person actually received that were provided by a local, state or federal government agency, except when payment under this plan is expressly required by federal or state law. We will not cover payment for these services if the insured person is not required to pay for them or they are given to the insured person for free.

Services of Relatives. Professional services received from a person living in the insured person’s home or who is related to the insured person by blood or marriage.

Voluntary Payment. Services for which the insured person is not legally obligated to pay. Services for which the insured person is not charged. Services for which no charge is made in the absence of insurance coverage, except services received at a non-governmental charitable research hospital. Such a hospital must meet the following guidelines:

1. it must be internationally known as being devoted mainly to medical research;
2. at least 10% of its yearly budget must be spent on research not directly related to patient care;
3. at least one-third of its gross income must come from donations or grants other than gifts or payments for patient care;
4. it must accept patients who are unable to pay; and
5. two-thirds of its patients must have conditions directly related to the hospital’s research.
