Anthem BlueCross
2014 California Medicare Advantage Update

Dear Healthcare Provider,

Annual benefits changes for Medicare Advantage plan members will be effective January 1, 2014. Each year, we renew our contract with the Centers for Medicare and Medicaid Services (CMS) and CMS re-evaluates and approves the benefits we’ll offer to our Medicare Advantage members for the upcoming year.

The below changes apply to members enrolled in Anthem Medicare Preferred Standard (PPO), Blue Cross Senior Secure Plan I (HMO), and Blue Cross Senior Secure Plan II (HMO). You can help members manage their health care costs by being aware of these changes. In addition, remember to check the MemberID card at the beginning of each calendar year, as the member may have changed plans.

Notable 2014 benefits changes and highlights by plan type.

New Year! New Formulary Changes!

Each year we evaluate our benefits and formulary and may make changes to update them. Formulary changes in the upcoming year include: tier changes, drug removals, and new Prior Authorization and Quantity Limit requirements.

Your patients will have formulary changes and will need your help to ensure they get their needed treatments at the most affordable cost.

Encourage your patients to review the 2014 formulary information within their Annual Notice of Change (ANOC) mailing, or to view the information online when it is available, beginning October 1. Ask them if the coverage for any of their prescriptions has been changed, and consider alternative medications in a lower cost-sharing tier that may meet their need.

- Initial Coverage Limit (ICL) for Medicare Part D will decrease from $2,970 to $2,850.
- TROOP amount will decrease from $4,750 to $4,550.
- In 2014 we will offer daily fills for all MAPD plans. Daily fills give members an opportunity to try a high-priced drug for adverse reactions before purchasing an entire prescription. The pharmacy network includes preferred and other network retail pharmacies. You save more by paying a lower cost-sharing amount at preferred retail pharmacies. Our preferred retail pharmacies include Kroger Pharmacy, Rite Aid Pharmacy and Walmart. Kroger Co. participating preferred pharmacies include Kroger, FredMeyer, King Soopers, City Market, Fry’s, Smith’s, Dillons, Ralphs, QFC, Baker’s, Scott’s, Owen’s, Pay Less, Gerbes and JayC. Walmart participating preferred pharmacies include Walmart, Neighborhood Market and Sam’s Club. Members can fill a prescription at a network retail pharmacy, but their cost-sharing amount may be higher.

Deductible

In 2014 Anthem Medicare Preferred Standard (PPO)s will have a Part D deductible amount that range from $115 to $179 that will apply to it’s tier 2: Non-Preferred Generic, 3: Preferred Brand, and 4: Non-Preferred Brand drugs. This deductible will have to be met before those tier’s regular copays/coinsurance will apply.

In 2014 Blue Cross Senior Secure Plan II (HMO) H0564-052 will have a Part D deductible amount of $120 that will apply to it’s tier 2: Non-Preferred Generic, 3: Preferred Brand, and 4: Non-Preferred Brand drugs. This deductible will have to be met before those tier’s regular copays/coinsurance will apply.

Enhanced Gap Coverage Removal

Blue Cross Senior Secure Plan I (HMO) and Blue Cross Senior Secure Plan II (HMO) will no longer be offering enhanced coverage for it’s generic drugs when the member reaches the gap. In previous years this plan allowed a member to continue to pay their pre-ICL copays during the gap for generics. In 2014,
when a member reaches the gap for this plan, they will be expected to pay a 79% coinsurance for all generics, or a 47.5% coinsurance (plus a portion of the dispensing fee) for their brand drugs until they reach the catastrophic phase.

- During the Catastrophic Coverage Phase: Members will pay 5% or $2.55 whichever is more for generic drugs, and members will pay 5% or $6.35 for brand drugs.
- **Group/Union Sponsored Plans are not impacted by the changes described above for Pharmacy plans.**

**Diabetic Supplies**

Beginning January 1, 2014, our Anthem Individual Medicare Advantage Members will only cover LifeScan, Inc, OneTouch® or Roche Diagnostics, ACCU-CHEK® diabetic blood glucometers and blood glucose test strips for our Anthem Individual Medicare Advantage members. To be covered for a $0 copay, the members must purchase these supplies at an in-network: retail or mail-order pharmacy, or Durable Medical Equipment supplier.

**Covered blood glucometers and blood glucose test strips in 2014:**

- LifeScan, Inc., OneTouch®
- Roche Diagnostics, ACCU-CHEK®
- A limit of 100 blood glucose test strips per month

Other blood glucometer or blood glucose test strip brands or more than 100 test strips per month are not covered unless you as the doctor or provider tell us another brand or a larger quantity is medically necessary for the member’s treatment, no other brand or larger quantity limit will be covered.

- If our member is currently using OneTouch or ACCU-CHEK® blood test strips or glucometer products, you don’t need to do anything!
- If our member is not using OneTouch or ACCU-CHEK® blood test strips or glucometer products, then our member will need to get new prescriptions for the supplies by January 1st for these claims to be covered by us.
- You should discuss these coverage changes and possible new prescriptions with our member/your patient. If it is medically necessary for them to continue using a different brand of blood test strips or glucometer and/or more than 100 blood test strips per month, you will need to communicate this to us by requesting an exception. If your patient purchases their supplies through the pharmacy or the ESI mail-order service exceptions may be requested after December 1, 2013 by calling 1-800-338-6180. If your patient purchases their supplies through a Durable Medical Equipment supplier you will need to call the health plan.

**The benefit and brand limitations described above generally do not apply to our employer or union group plans. Please contact provider services for benefit information.**
**Insulin Exclusivity**

Effective January 1, 2014, select Anthem Individual MAPD plans will establish an insulin exclusivity contract with Eli Lilly, the manufacturer of Humulin and Humalog human insulins. Other insulin’s are considered non-formulary and are not eligible for coverage beginning January 1, 2014.

The following plans will be impacted by an insulin change [PM Insert Impacted plans]. Please have members check their plan name on the left hand corner of their member ID card to see if they were impacted by this change. If members were impacted by this change the below formulary changes will apply:

**Balance Billing Reminder**

The Centers for Medicare and Medicaid Services and our plan does not allow you to “balance bill” Medicare Advantage HMO and PPO members for Medicare covered services. CMS provides for an important protection for Medicare beneficiaries and our members such that, after our members have met any plan deductibles, they only have to pay the plan’s cost-sharing amount for services covered by our plan. As a Medicare provider and/or a plan provider, you are not allowed to balance bill members for an amount greater than their cost share amount. This includes situations where we pay you less than the charges you bill for a service. This also includes charges that are in dispute.

Here is how this protection works for Anthem Medicare Preferred Standard (PPO):

- If the member cost sharing is a copayment (a set amount of dollars, for example, $15.00), then the member pays only that amount for any services from a network provider. Copayments may be higher for services performed by an out-of-network provider.

- If the member cost sharing is a coinsurance (a percentage of the total charges), then the member never pays more than that percentage. However, the cost depends on the type of provider:

  - If the member obtains covered services from a network provider, the member pays the coinsurance percentage multiplied by the plan’s reimbursement rate (as determined in the contract between the provider and the plan).

  - If the member obtained covered services from an out-of-network provider who participates with Medicare, then the member pays the coinsurance percentage multiplied by the Medicare payment rate for participating providers.
If the member obtains covered services from an out-of-network provider who does not participate with Medicare, then the member pays the coinsurance amount multiplied by the Medicare payment rate for non-participating providers.

If the member obtains covered services from a provider who has opted out of Medicare, then the plan will not pay for these services, and depending upon the circumstances, the member may be liable for the entire amount.

Here is how this protection works Blue Cross Senior Secure Plan I (HMO) and Blue Cross Senior Secure Plan II (HMO):

- If a members cost sharing is a copayment (a set amount of dollars, for example, $15.00), then the member pays only that amount for any covered services from a network provider.
- If a members cost sharing is a coinsurance (a percentage of the total charges), then the member never pays more than that percentage. However, a members cost depends on which type of provider you see:
  - If a member receives the covered services from a network provider, members pay the coinsurance percentage multiplied by the plan’s reimbursement rate (as determined in the contract between the provider and the plan).
  - If a member receives the covered services from an out-of-network provider who participates with Medicare, then the member pays the coinsurance percentage multiplied by the Medicare payment rate.

**Employer Group Retiree Changes**

Employer or Union Group Medicare Advantage plan benefits vary from the Anthem Medicare Preferred Standard (PPO), Blue Cross Senior Secure Plan I (HMO), and Blue Cross Senior Secure Plan II (HMO) mentioned here. **Employer Group Plan names and benefit changes may be different than what is described above.** For Employer or Union Group members, please refer to the member’s Evidence of Coverage or call Provider Services at the number on the member ID card for more benefit detail. Medicare Advantage member ID cards contain a CMS identifier in the lower right corner of the card. The number will be five characters (xxxxx) followed by three characters (XXX). The member is in an employer or union sponsored plan when the last three digits Start with an eight (8xx).

Providers should reference the member’s ID card for changes at every visit to help ensure proper billing. You can also assist your patients by passing on any ID card prefix or benefit change information to any ancillary providers who will be asked to serve your patient.

**What Does the Annual Wellness Visit Cover**

All of our Medicare Advantage plans cover the AWV. Members are encouraged to use this annual benefit as one way to help assess current health status and future needs.

For the first visit, providers should bill G0438 for the AWV which includes the Personalized Prevention Plan Service. Thereafter, providers should bill G0439 for the AWV and Personalized Prevention Plan Service, subsequent visit.
