We know the foundation of good health care is the relationship patients have with their doctors. And we understand that when our members work closely with their primary care physician (PCP), they're much more likely to be healthy and have lower costs.

That's why we created the Pathway HMO and Pathway PPO networks. These high-quality networks are available for the Las Vegas, North Las Vegas, Henderson, Reno and Sparks areas.

**A new kind of partnership**

We built our new Pathway networks on one simple rule: When you give PCPs the tools, information and resources they need, they become stronger advocates to make patients healthier and to make their health care more affordable.

The Pathway networks are made up of doctors who’ve proven their commitment to a patient-centered model of care. We partnered with these PCPs and specialists not only for their expertise – but also for their willingness to team up with other doctors. Pathway doctors have proven that they know how to make each part of a member’s care fit together.

And when members’ doctors work together, they’re more likely to be healthy and have lower costs. They save time, too, because they have to go to fewer doctor visits to get the right care.

Plus, Pathway doctors have invested in technology to transform their practices. In turn, we reward these innovative doctors for improving quality of care and for outcomes that lower costs.
Health care benefits that travel across the country

Pathway PPO members have access to BlueCard PPO, our national PPO network. That means they’ll have options when they need care and travel out of state. More than 90% of hospitals and 80% of doctors across the U.S. contract with Blue Cross and Blue Shield plans.¹

Pathway HMO members have access to our guest membership program, called Away from Home Care. This program lets members and their covered dependents be a “guest” of a participating Blue Cross and Blue Shield HMO while they’re away for an extended time (90 days or more). This may be ideal, for example, if a subscriber has a dependent attending school out of state.²

We’ve got plans. You have choices.

Our new Pathway networks come with many of our large group plans. Plus, these plans include all our great health and wellness online tools and programs.

PPO options:
- BluePreferred D and H
- BlueSecure 5, 6 and 7
- HSA 19, 23 and 24

HMO options:
- BlueAdvantage A, B and C
- BlueAdvantage deductible plans: A, B, E, F and H

To learn more about the Pathway networks, contact your broker or Anthem sales representative today.

¹ Extended stays must be 90 consecutive days or more in order to be eligible for Guest Membership. Please note: There are 19 states, in addition to Puerto Rico, that do not participate in this program: Alabama, Alaska, Idaho, Iowa, Kansas, Mississippi, Montana, Nebraska, North Dakota, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Utah, Vermont, Washington, West Virginia and Wyoming. States that are covered are not always covered statewide, and some areas of a covered state may not be available.
