Helping you keep employees healthy is our concern too.

You've probably heard that dental health is an important part of overall health. But consider this: if a patient is suffering from periodontal disease, they are twice as likely to have heart disease or a stroke. And there's also research linking poor oral health to diabetes, lung disease and premature births.

Proper oral care is clearly essential to helping maintain good health. And who better to help you provide head-to-toe benefits than Anthem Blue Cross and Blue Shield — part of the largest health care company in the country? Just like you, we want to help achieve healthier employees — and that includes Dental Blue.

Dental Blue offers more value, less hassle.

Dental Blue members get extra savings where other carriers leave off. Bottom line: Members get our negotiated pricing when they visit an in-network provider for covered services:

► If frequency limitations have been exceeded for a covered service. For instance, if a dental plan covers two cleanings a year and you wish to have a third cleaning, you would receive our negotiated rates for the third cleaning.

► After reaching your annual maximum

We're here to help.

It comes down to serving our customers — and we set out to do it right from the beginning. Whether it is providing members with access to nearby providers or helping address a concern, we want to make it easy.

If they need help, members can call the number on the back of their ID card, which is answered by a live, domestic customer service representative. Calling after hours? We can still assist them with our interactive voice-response hotline.

What about you? We offer a variety of online tools designed to make it easy to manage benefits.
You get access to an industry-leading network.

Dental Blue offers employees access to more dentists and specialists than most carriers on the block. Even better, we offer a choice of networks to help fit your budget without reducing dental benefits. No matter which network you choose, members can see any dentist they want — with the potential for lower costs when they choose an in-network dentist.

We are your single solution.

With Anthem Blue Cross and Blue Shield, it's about making your benefit program simpler. And, more importantly, making it work well together. Whether it’s Health, Dental, Vision, Life or Disability, we’re in it to help achieve healthier employees. Don’t forget about our One Solution Savings program — your opportunity to save on your Health premium by enrolling in a Specialty product like Dental Blue.

Contact your broker or Anthem Blue Cross and Blue Shield sales representative to find out more about Dental Blue.

Want to offer dental coverage at even less cost to you? With our voluntary Dental Blue plans, your employees pay up to 100% of the cost while benefitting from group rates.
